

SUMAN R

Software Engineer | Full-Stack & Laravel Developer

Phone: +91 7339219851 • Email: sumanunom@gmail.com • Location: Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Results-driven **Software Engineer & Laravel Developer** with 4+ years of hands-on experience architecting and delivering high-performance FinTech valuation platforms, enterprise billing solutions, and full-scale e-commerce systems. Adept in developing robust RESTful APIs, granular Role-Based Access Control (RBAC) engines, and automated business workflows. Strong expertise across **PHP, Laravel, CodeIgniter, MySQL, JavaScript, and modern CSS frameworks**, dedicated to clean code, scalable architecture, and tangible business impact.

TECHNICAL SKILLS

Backend Technologies:	PHP, Laravel, CodeIgniter, RESTful APIs, OOP, MVC Architecture
Databases & ORM:	MySQL, Eloquent ORM, Schema Design, Query Optimization & Indexing
Frontend & UI:	JavaScript (ES6+), jQuery, HTML5, CSS3, Tailwind CSS, Bootstrap, AJAX
Architecture & Tools:	Role-Based Access Control (RBAC), Workflow Engines, Git/GitHub, Postman, Composer
Domains & Practices:	FinTech Loan Appraisal Systems, Automated Invoicing (GST), E-Commerce, Agile, Manual QA

PROFESSIONAL EXPERIENCE

Laravel Developer — **Primasoft Technologies**, Chennai, India 07/2025 – Present

- **E-Commerce Architecture & Administration:** Engineered a scalable e-commerce platform including a centralized administrative dashboard for real-time inventory tracking, multi-tier product catalog management, and automated order processing lifecycles.
- **Frontend Experience & Conversion Flow:** Built responsive, mobile-first user interfaces featuring dynamic homepages, interactive wishlists, and an optimized, high-conversion cart-to-checkout pipeline.
- **Backend Engine & Notification Pipeline:** Implemented robust business logic for dynamic pricing algorithms, discount logic, and automated client email dispatch via Laravel Mail/Notification services.

Software Engineer — **5GX Global Private Limited**, Chennai, India 02/2024 – 07/2025

- **FinTech Loan Valuation Platform:** Architected an enterprise appraisal management system facilitating secure loan document exchange between banking institutions and third-party verification agencies.
- **Multi-Tier RBAC & Workflow Automation:** Designed and implemented granular Role-Based Access Control (RBAC) supporting 5 distinct user tiers (Case Initiator, Site Engineer, Report Generator, Reviewer, Approver) to streamline end-to-end case verification lifecycles.
- **RESTful API Integration:** Developed secure, high-throughput APIs to transmit validated valuation reports directly into core banking systems.
- **Automated Billing & Subscription Engine:** Engineered a subscription billing platform featuring automated invoice generation, payment receipt issuance, overdue tracking, and automated email reminders.
- **Service Flow & TAT Management:** Developed a configurable ticket flow engine with stage-based routing, real-time queue monitors, and automated SLA/TAT breach escalations.

Web Developer — **Axiom Consulting Private Limited**, Chennai, India 03/2022 – 02/2024

- **Custom ERP & GST Invoicing Platform:** Developed an accounting and billing platform with automated GST computations, instant quote generation, profit analytics dashboards, and overdue receivables tracking.
- **Financial Analytics:** Built customizable reporting modules enabling corporate administrators to aggregate and export weekly, monthly, and fiscal-year financial performance reports.
- **Digital Software Licensing E-Commerce:** Created an e-commerce platform for musical software products featuring dual-seat digital license activation key management alongside physical goods dispatch.
- **Full-Stack Maintenance & QA:** Delivered custom responsive landing pages, WordPress modules, performance optimizations, and rigorous cross-browser manual QA across diverse client projects.

EDUCATION

Master of Computer Applications (MCA) — University of Madras, Chennai, India	2019 – 2022 Score: 76.65%
Bachelor of Science in Computer Science (B.Sc. CS) — E.G.S. Pillay Arts and Science College, Nagapattinam	2016 – 2019 Score: 75.50%

KEY HIGHLIGHTS & LANGUAGES

- **Independent Delivery:** Conceptualized, developed, and successfully launched two production web applications independently.
- **Languages:** English (Professional Working Proficiency), Tamil (Native).
